

## *Mentor Meeting 2/23*

- 1) We set up a collab
- 2) DistilBERT model and fit it to our own problem? That way it's pretrained on a large dataset but we can still use it
  - a) An existing model that can classify emotions
  - b) Good at detecting general emotions

NEED:

- 1) Set up a meeting to CODE!
- 2) Thinking about weekly meetings on Saturdays?
